

OZONE PLUS STERILISING CABINET

SPECIFICATION SHEET – MODEL OZH28

Professional Headset Sterilizing For Call Centers & BPOs

A high-quality range of surgical stainless steel ozone headset sterilizing cabinets.

Manufactured to medical grade specifications for daily professional use. The Ozone Plus cabinets will sterilize up to 30 headsets in a 15-minute cycle.

Safe & effective. Ozone sterilizes up to 99% sterile, helping to create a healthy work environment, ensuring sterile headsets, reducing cross-infection between employees and preventing re-infections when employees have been sick.
